Frontend: HTML,CSS
Programming: Python, C,Javascript
Visualization: Power BI, Tableau, Matplotlib, Seaborn
Database Management: SQL,MySQL

INDUSTRY RECOGNITIONS/ CERTIFICATIONS

AWS Certifications: AWS Academy Cloud Security Foundations,AWS Academy Cloud Foundations,Cloud Practitionar Essential Course
Machine Learning Certifications: Kaggle Machine Learning Certifications
Prompt Engineering Certifications: Prompt Engineering Certification from Udemy
Tableau data visualization Certifications: Tableau 2024 A-Z: Hands-On Tableau Training for Data Science

ACADEMIC PROJECTS

Odisha Tourism website   Oct 2023 – Nov 2023
I developed an engaging tourism website for Odisha using only HTML and CSS to showcase the state's rich cultural heritage

- Created visually appealing layouts with responsive design techniques to ensure optimal viewing across various devices.
- The website highlights key destinations and cultural events, enhancing the user experience with intuitive navigation and clean, organized content.
- Implemented custom CSS animations and effects to bring the vibrant spirit of Odisha to life.

Blog Website   Dec 2023-Jan 2024
Designed and developed a fully functional blog website using HTML and CSS.

- Implemented a clean and responsive layout for optimal user experience across various devices.
- Incorporated effective navigation, organized content sections, and styled the interface to enhance visual appeal.
- Ensured code efficiency and compliance with web standards.
- Demonstrated creativity in design and attention to detail, contributing to an engaging and user-friendly online platform.

Apple Mobile and Laptop E-Commerce Website   May 2024- June 2024

Developed a sleek and user-friendly e-commerce website for Apple mobile and laptop products using only HTML and CSS.

- The website features responsive design for optimal performance across various devices.
- Implemented clean, modern layouts with intuitive navigation to enhance the shopping experience.
- Highlighted product details and specifications with well-organized content, incorporating CSS animations and effects to create an engaging and dynamic user interface.
